## PROJECTS

### Staff minder

A staff minder tracks employee productivity and provides recommendations. It tracks their attendance, leave records, and activity while on the job. keeps accurate time. Technologies-React, Chakra UI, Express Js, Mongoose, Render, and Netlify (deployment)

### URL- Shorten

A URL shortener website shortens your URL . The idea is to keep the web page address as short and simple as feasible. To build this Poco URL, Express, Mongoose, and MongoDB were used as the backend and render Vercel for deployment respectively.

### Smarmy - FoodApp

The website was created using HTML5 and CSS and is about a restaurant. It includes a menu with information about the food and prices, a blog page that describes the dishes, and a review page that highlights customer satisfaction.
